This PDF is a demonstration of my RMD PDF skills. To look at my work more fully check out my Github Repository.[1].

0.0.1 Example of me using a regression table:

| Number of Baskets Made | | | |
| Out of Five Shots | | | |
Person	Try 1	Try 2	Try 3
A	1	3	2
B	2	4	5

0.0.2 Here is an example of me using a regression table using the gtsummary package:

Characteristic	Beta	95% CI[1]	p-value
major_category			
Arts	—	—	
Engineering	-12804	-28089, 2482	0.10

[1]CI = Confidence Interval
